KORDOVAN · ORGANIC CONTENT PACK · WEEKS 1–2

16–29 November: every post, shot and prompt

Two weeks of Instagram and Facebook posts: 6 Reels, 3 carousels and daily Stories. Every video has a numbered shot list you can film at your desk in one session. Every image has a copy-paste GPT prompt. I edit the clips and return them ready to post.

How the two weeks work

STEP	WHO	WHEN	WHAT
1	You	Sat 15 Nov, about 40 min	Film **all** the clips in section 2 in one sitting, grouped by setup so you set up the desk only once.
2	You	Same day	Send the raw clips as **WhatsApp "Document"** (not as video; that keeps full quality) or a Google Drive folder. Name nothing; I sort them by the shot numbers you read out.
3	Me	Within a day	Edit each Reel: cuts, on-screen text in Fraunces/Inter, brand colours, end card with logo, captions burned in. I return finished MP4s plus the caption text.
4	You	About 20 min	Make the 3 carousels in GPT from the prompts in section 4.
5	You	Sun 16 Nov	Schedule everything in **Meta Business Suite** (free) at the times below. Add a trending audio in the Instagram app at posting; I leave music off so nothing gets muted for copyright.

Post times: **1–2 pm** or **9–11 pm PKT**. Every link carries a tracking tag so I can count real orders from organic posts.

2 · The office shoot (one session, about 40 min)

Before you press record

- **Phone:** vertical, 4K or 1080p at 30 fps, back camera. Wipe the lens. Turn on the grid. Tap and hold on the product to lock focus and exposure (AE/AF lock).
- **Light:** a window to the side, not behind you. Overhead lights off if they turn things yellow. Nothing harsh or flashy.
- **Desk:** clear everything except the product. The best surfaces are a plain wooden desk, a sheet of brown kraft paper or a dark cloth. No logos from other brands, no papers with writing, no screens showing anything.
- **Hands:** clean, sleeves rolled or a plain dark cuff. A watch is fine. No talking needed.
- **Every shot:** hold still for 2 seconds before and after the action, and do each action **3 times**. Before each one, say the shot number out loud ("shot four"); I use that to sort clips and mute it in the edit.
- **Phone stand:** a tripod or a stack of books for the top-down shots. Handheld is fine for the slow pans.

Setup 1 · Mocha Mate unboxing (for Reel 1 and Reel 6)

Props: an unopened Kordovan parcel exactly as customers receive it, with a Mocha Mate inside. Ask the store to pack one the normal way.

#	FRAMING	ACTION	SEC
1	Top-down, parcel centred, 20 cm of desk around it	Hands slide the parcel into frame and rest on it.	3
2	Top-down, same	Open the parcel and lift out the wallet box or pouch. Slow, no rush.	5
3	45° angle, close (wallet fills half the frame)	Take the wallet out and turn it over once in your hands, front then back.	5
4	Macro, phone 10–15 cm away	Thumb slowly runs along the stitched edge.	4
5	Top-down	Open the wallet flat, then close it.	4

6	Hold the phone still at eye level, wallet in the left hand	Raise the wallet up next to the store photo of the same wallet shown on a second phone or a printed photo (the "Arrived" moment).	4

Setup 2 · Pocket test (for Reel 3)

Props: your own old, thick wallet (any brand; turn its logo face down), the Mocha Mate, 6 cards (turn the faces down or use loyalty cards, never a real bank card face up), a CNIC-sized card, 5–6 folded notes and 4 coins. **Test it first:** put everything in the Mocha Mate before filming. If 6 cards don't fit comfortably, use 5 and tell me, and I'll change the on-screen text. We only show what really fits.

#	FRAMING	ACTION	SEC
7	Side angle, at desk height, both wallets standing on their edge side by side	Static. Shows the thickness difference.	3
8	Top-down	Empty the old wallet onto the desk: cards, notes, coins spill out.	5
9	Top-down	Load the Mocha Mate one item at a time: cards into slots, CNIC into the ID window, notes into the cash pocket.	10
10	Macro on the back	Drop the coins into the back coin pocket and close the button.	5
11	Side angle, at desk height	Close the loaded Mocha Mate, press it flat with one finger, and stand it next to the empty old wallet.	4
12	Waist level, standing	Slide the loaded Mocha Mate into a front trouser pocket. Show that the pocket stays flat.	4

Setup 3 · Close-up details (for Reel 2)

Props: Mocha Mate, Bastion, Truckkr, Luke, and your own used wallet if you have one (for patina). Lay them on the kraft paper.

#	FRAMING	ACTION	SEC
13	Macro, 10 cm, light from the side	Slow slide of the phone along the grain of the Truckkr (crazy horse). Very slow, about 2 cm a second.	6
14	Macro	Same along the stitching of the Bastion.	6
15	Macro	Fingernail draws a light line on the Truckkr, then rub it with the thumb so it fades (the crazy horse burnish). Test on a hidden spot first.	6
16	Macro on a card slot edge	Bend the Luke gently to show the cut edge and fibres.	5
17	Top-down	If you have one: your own used wallet next to a new one of the same model, both open. Hands swap them once.	5

Setup 4 · Winter kit (for Reel 4)

Props: one pair of winter gloves (brown or black), a jacket or warm coat you own, a Mocha Mate or Bastion. Filmed at the office door or a balcony is fine; no faces.

#	FRAMING	ACTION	SEC
18	Close on the hands, chest height	Pull the gloves on, one hand then the other, and flex the fingers twice.	6
19	Close	Wearing the gloves, take the wallet out of a coat pocket, open it and take out one card.	6
20	Macro on the glove	Slow pan across the glove leather and stitching.	5
21	Top-down flat lay on the desk	Hands place the gloves, the wallet and a belt in a neat row (the "winter kit").	5

Setup 5 · Bags (for Reel 5 and Reel 6)

Props: 3–4 Blessed Friday clearance bags from the store. Ask for in-stock ones from the plan. Only bags on the clearance list; the Diva Tote is vegan, so if it appears, never call it leather.

#	FRAMING	ACTION	SEC
22	Wide, desk level, bags stacked or lined up so the desk looks crowded	Static, then one more bag is placed on top.	4
23	Close	Hand opens one bag's zip slowly and lifts the flap.	5
24	Close	Fold a laptop or a few files into one bag to show what it holds.	6
25	Top-down	Unbox one bag from a parcel (same as shots 1–3, with a bag).	8
26	Macro	Pan across the bag's grain, handle stitching and hardware.	6

3 · The Reels (what I build from your clips)

All Reels: 9:16, 1080×1920, 15–25 seconds. On-screen text in Inter (body) and Fraunces (big lines), espresso and alabaster, cognac for the key word. The first 2 seconds carry the hook. The end card shows the logo, "kordovanleather.com" and the product name and price.
