Mocha Mate: Founder Video

Six months in my pocket. An honest founder review that sells.

The one rule that makes editing easy

Before EVERY take, say the code out loud: “Scene H1, take 1”. Then wait 2 seconds and start. For silent shots: “B-roll B3”. I find and sort every clip from this. No renaming, no folders.

Why this ad stops the scroll

What happens on screen	Why it works
Second 0: motion + sound (the button SNAP, or two wallets side by side)	The first second decides the scroll. No logo, no intro, no 'hello'.
A question in the first line (“Pehchaan saktay hain kaunsa?”)	The brain wants the answer, so people keep watching.
Your REAL 6-month wallet next to a new one	Proof, not a claim. Nobody else in Pakistan is showing leather that ages.
CNIC window + checkpoint/bank line	Everyone has dug for their CNIC. It's instantly relatable.
Founder voice, honest tone, no hard sell	Trust is what converts in a COD market. Ads that feel like ads get skipped.
Price + COD + warranty in the last 5 seconds	Removes the three objections right before the click.

Before you press record

☐ Phone **vertical**, 1080p, 30fps ☐ Lens wiped ☐ Tap and hold to lock focus and exposure
☐ Window light from the **side**, never behind you ☐ Fan / AC off, quiet room
☐ Plain wall or wooden desk ☐ Plain dark shirt, no logos ☐ Look into the **lens**, not the screen
☐ Props: your 6-month Mocha Mate · a NEW Mocha Mate · your real key · CNIC · cards · notes
☐ Don't memorise: read the line, look up, say it. 2–3 takes each. 2-second pause before and after.
☐ At the end: **10 seconds of silence** in the same room (“Room tone”, then quiet).

Honesty rules: only show what's REALLY in your back pocket. The old wallet must be your real 6-month one. No numbers beyond 150+.

Hooks: film all three

Each is the first 3 seconds of a different version. Meta tests which one stops the most thumbs, and we put the budget behind the winner.
