KORDOVAN · ORGANIC SOCIAL PLAN · NOV 2026

Present. Consistent. Proof-led.

A posting system the team can actually keep up: what we post, how often, who makes it, how it feeds the ads funnel, and how we measure it. It starts on 16 Nov and runs through Blessed Friday into the December wedding and gifting season.

1 · Where we are (Instagram, read 12 Nov)

What we see	What it means
Posted almost every 2 days in Mar–Apr, then **3 posts in 7 months** (17 May, 13 Aug, 30 Oct)	The algorithm and followers forgot us. Consistency beats volume: a cadence we can hold matters more than a burst.
Mostly single lifestyle images with one-line captions; **1 Reel**	Reels are where new people find a brand on Instagram now. Static one-liners get 2–14 likes.
Best ideas so far: "Real vs fake, we cut one open" (Apr) and the Roman-Urdu Mocha caption (Oct)	Proof content and talking like our customers talk are the right direction, so we build on them.
Ads now run a TOP/MIDDLE/BOTTOM funnel	Organic posts feed it: everyone who engages becomes a MIDDLE-tier audience, and our best organic post becomes the next ad test.

2 · The rhythm we can keep

Every week	What	Where
2 Reels (15–30 s)	Your office clips (hands + product, 10–20 s each) edited by Claude, plus AI motion from our website photos: pocket test, unboxing, Ordered vs Arrived, care tips, close-ups	Instagram + Facebook; the same file goes to TikTok + YouTube Shorts at zero extra work
1 carousel (5–8 slides)	Education or a range: "how to spot real leather", "what fits in each wallet", gift guide	Instagram + Facebook
3–5 Stories	Behind-the-scenes, polls ("black or brown?"), restocks, product close-ups, a question box once a week	Instagram (auto-shared to Facebook)
Replies (daily, 10 min)	Answer every comment and DM within the day; the best questions become next week's FAQ post	Asad (or whoever runs the page)

Scheduled in advance with Meta Business Suite (free) for Instagram + Facebook. Post times: 1–2 pm or 9–11 pm PKT (lunch scroll and late-evening scroll), to be checked against our own Insights after 3 weeks.

3 · Five content pillars (the mix)

Pillar	Share	Why it sells	Examples
Proof & detail	35%	Kills the "is it real leather?" doubt behind COD refusals	Macro close-ups of grain and stitching (from website photos, animated) · patina: your own used wallet next to a new one · water-drop / flex test on your desk · "how to spot real leather"
In use	25%	Shows the product solving a daily problem	Pocket test (slim vs bulky) · "what fits in the Mocha Mate" · gloves on a cold bike ride · bag packing for a trip
Trust & people	20%	Real people and real parcels make a COD buyer comfortable	Ordered vs Arrived · packing today's orders · real customer reviews (with permission) · FAQ: COD, returns, delivery time · the store
Drops & offers	10%	Converts the warm audience (only when it's real)	Restocks (Mocha Mate back) · Blessed Friday · new launches · "last few"
Gifting & culture	10%	Dec–Feb is wedding season; leather is a classic gift	Groom's gift guide · "for him / for her" · winter essentials · made-in-Pakistan pride

Hooks for the first 2 seconds of every Reel

- **Proof:** "This wallet is 2 years old. This one arrived yesterday." · "Cut it open and you'll see the difference."
- **Problem:** "If your wallet looks like this, watch this." (bulky wallet) · "Your gloves crack every winter? Here's why."
- **Curiosity:** "What 6 cards, cash and your CNIC look like in a slim wallet." · "Packing today's orders: guess the bestseller."
- **Trust:** "What you order vs what actually arrives at your door."

Voice: calm, confident, short sentences. English for the brand line, Roman Urdu for everyday talk (we test both and keep what works). Never shout, never invent reviews, never mention a city, and the Diva Tote is vegan.

4 · Who does what (about 1.5 hours a week, all office-based)

Who	When	What
Asad	Once a week, about 30 min, in the office	Films 4–6 raw clips on the phone from Claude's weekly shot list: hands + product on the desk (pocket test, unboxing, flex/water test, what fits). No talking needed. Sends the raw clips; Claude cuts and captions them.
Asad	Once a week, about 20 min	Makes the week's carousel / static in GPT from a ready prompt (and AI image-to-video when useful); approves and schedules the week's pack.
Claude (Omar, CMO)	Every Friday check-in	Next week's pack: the office shot list, the edited Reels (cut, on-screen text, brand end card), captions (English + Roman Urdu), hooks, carousel prompts, hashtags, post times. One file, ready to schedule.
Claude	Monthly	Reads Insights + Shopify (orders from Instagram/Facebook links) → keep / drop pillars; the best organic post goes into the ad TEST slot.

5 · How organic and ads work together

- Everyone who engages with a post becomes part of the **MIDDLE-tier ad audience** (people who know us), so organic makes the ads cheaper.
- Every month, the organic post with the best saves and shares becomes next week's **ad TEST**.
- The link in bio and story links carry tracking tags (utm_source=instagram), so we can see real orders from organic posts.

6 · What we measure (monthly)

Metric	Why	First target (by mid-Dec)
Posting consistency	The habit comes first	100%: 2 Reels + 1 carousel every week
Reel reach to non-followers	Are we being discovered?	Rising week on week
Saves + shares per post	The best sign that content is valuable	Find our top 3 formats
Profile visits → link clicks	Interest turning into visits	Baseline, then +20%
DMs asking about a product	Purchase intent	Track weekly
Shopify orders from Instagram/Facebook organic links	Real money	Baseline in Dec

7 · First two weeks (16–29 Nov)

Day	Post	Pillar · hook
Sun 16	**Reel:** Ordered vs Arrived, Mocha Mate (the real store photo + a 10 s unboxing clip filmed on your desk)	Trust · "What you order vs what arrives"
Tue 18	**Carousel:** "5 ways to spot real leather" (smell, edges, grain, burn, price)	Proof · education
Thu 20	**Reel:** macro detail, slow pan over grain and stitching (AI motion from website photos), 15 s, warm light	Proof · "Look closer"
Sat 22	**Reel:** pocket test, a bulky wallet vs the Mocha Mate (the same cards fit)	In use · problem hook
Mon 24	**Carousel:** Blessed Friday teaser, "Something for every bag-carrier. Friday." (no prices yet)	Drops · curiosity
Wed 26	**Reel:** "We made too many bags" (the Our Mistake creative, animated) + Story countdown	Drops · honest hook
Fri 27	**Carousel:** the Blessed Friday range (the 10-card carousel) · Stories all day: receipt, price cards	Drops · saving
Sun 29	**Reel:** a desk unboxing of a Blessed Friday bag · Story: "last day tomorrow"	Trust · deadline (real)

December themes: groom's gift guide, winter (gloves, caps, jackets: order-by dates for made-to-order), patina (your own wallet, new vs used), real reviews as they come in, Ordered vs Arrived for gloves.
