## How these sit next to the live ads

| | Live now | New |
|---|---|---|
| H1 Comparison | new vs used Mocha Mate | |
| H3 Founder | you talking to camera | |
| Ad A | | "Asli hai ya nahi?" three tests |
| Ad B | | Shaadi season gift |

Each new ad gets its own ad set at **Rs 1,000/day**. No other budget changes.

## Ad A: "Asli hai ya nahi?" (three tests, about 22 s)

Buyers here worry most that the "leather" they ordered is rexine. Everyone knows the lighter test. This ad answers that worry three times in the first 6 seconds. Each test is its own hook: if someone scrolls past the fire, the water may stop them, and the key may stop them after that.

Camera straight down on a table. Hands only.

| Time | Beat | What we see | Sound and on-screen text |
|---|---|---|---|
| 0–2 s | Hook 1: Fire | Lighter flame passes under the wallet's edge, keeps moving. No melting, no bubbling | lighter click, flame · **"Lighter test."** |
| 2–4 s | Hook 2: Water | Water poured onto the wallet, wiped off once with a cloth | splash · **"Paani."** |
| 4–6 s | Hook 3: Key | Key drags across the leather, a thumb rubs the mark away | scratch · **"Chaabi."** |
| 6–8 s | Reveal | Wallet held up to camera, clean | **"Teeno test. Ek wallet."** |
| 8–16 s | Use | Opens, cards in, notes in, folds shut, side view to show it's slim | leather sounds · **"Asli leather. Roz ke liye."** |
| 16–19 s | Close | Into the pocket | quiet |
| 19–22 s | End card | Mocha Mate · Rs 3,200 · Cash on delivery | brass snap |

### Test before you film (off camera)

- **Fire:** try it on a leather offcut first, then very briefly on a spare Mocha Mate. Keep the flame moving. If it leaves a scorch mark, drop the shot.
- **Key:** a scratch that rubs out with a thumb only happens on oiled or pull-up leather. If the mark stays, swap this hook for **standing on the wallet with a shoe and lifting it, unharmed** (text: **"Jootay ke neeche."**).
- **Water:** wipe it straight away and check that it leaves no stain.

**Only film a test the wallet really passes.** A faked test brings refused parcels and angry comments.

### Three versions from one shoot

Claude cuts three versions from the same footage, each opening with a different test (fire first, water first, key first). All three go in Ad A's ad set. Within a week we know which hook stops the scroll, and we use it on the next products.

### Ad copy

Primary text:

> Asli leather hai ya rexine? Hum ne lighter, paani aur chaabi se khud check kiya. Mocha Mate, Rs 3,200. Cash on delivery, ghar par check karein phir payment karein.

- **Headline:** Lighter test pass
- **CTA:** Shop Now
- ⚠️ Keep "ghar par check karein phir payment karein" **only if PostEx riders let customers open the parcel before paying.** If not, delete that sentence.

## Ad B: Shaadi season gift (slow cinematic, about 20 s)

Wedding season is starting. Many buyers are wives, sisters and friends buying for a man, and none of the live ads speak to them.

| Time | What we see | On-screen text |
|---|---|---|
| 0–3 s | Hands slowly lift the lid of the gift box, soft side light | **"Gift for him."** |
| 3–7 s | Wallet comes out, slow turn, light sliding across the leather | none |
| 7–11 s | Macro: the stitching, then a thumb pressing the leather | **"Asli leather."** |
| 11–15 s | Wallet opens to show the cards | **"Har cheez ki jagah."** |
| 15–20 s | Back in the box, lid closes, end card | **"Mocha Mate · Rs 3,200 · Cash on delivery"** |

- Phone on a stack of books, daylight from a window to one side, dark wood table or a brown leather offcut underneath.
- Move slowly. Every movement takes twice as long as feels natural.

Primary text:

> Shaadi ka season hai. Aisa gift dein jo woh roz istemal kare. Mocha Mate, asli leather. Rs 3,200, cash on delivery.

- **Headline:** Gift for him
- **CTA:** Shop Now

## Shoot checklist (both ads)

- Phone vertical, 1080p 30 fps. Light from a window, facing the wallet, never behind it.
- Shoot every beat **3 times**.
- **Never show a real ID.** Use a dummy card or turn the numbers away.
- Props: Mocha Mate (plus a spare for the fire test), lighter, glass of water, cloth, keys, a few cards and notes, gift box, a shoe (backup test).
- Same table, same light for the whole of each ad.

## Ad set setup (Claude builds, you approve)

- Two new ad sets, **Rs 1,000/day each**, same settings as the live Mocha Mate ad sets: 9 cities with no radius, Purchase optimisation.
- Same exclusions: COD Refusers, Purchasers 180 days, Delivered Buyers seed.
- **Audience: the 5% lookalike**, so the new ads don't bid against H1 and H3, which already use the 1% and 3% lookalikes.
- UTMs: `utm_campaign=tofm_mochamate_oct26` · `utm_content=test_fire` / `test_water` / `test_key` / `gift`.

## How we judge it

| Check | Rule |
|---|---|
| Day 3 | Rs 2,600 spent with 0 Shopify orders → kill that ad set |
| Day 7 | Cost per placed order (Shopify, not Meta) at or under ~Rs 1,000 → keep |
| Target | 2 orders a day per ad set (Rs 500 per order) |
| Never | judge on likes, views or comments |

## The money, if 4 ads average 6 orders a day on Rs 5,000/day

Per order: Rs 3,200 − Rs 900 product − Rs 250 delivery = **Rs 2,050**. Ad cost per order ≈ Rs 833.

| Per month (180 orders placed) | All delivered | About 1 in 3 refused |
|---|---|---|
| Paid orders | 180 | ~120 |
| Revenue | Rs 5,76,000 | Rs 3,84,000 |
| Product cost | − Rs 1,62,000 | − Rs 1,08,000 |
| Delivery incl. returns | − Rs 45,000 | − Rs 55,000 |
| Ads | − Rs 1,50,000 | − Rs 1,50,000 |
| **Profit** | **≈ Rs 2,19,000** | **≈ Rs 71,000** |

Not counted: the delivery fee customers pay at checkout (≈ Rs 40,000 more on 120 paid orders). **Biggest lever:** a confirmation call or WhatsApp on every order before dispatch. Cutting refusals from 1 in 3 to 1 in 5 adds about Rs 45,000 a month without more ad spend.
